To the Parents of 5th grade students:

Sometime during the remainder of the school year, your child will be receiving the Growth and Development Unit of the Health and Family Life Curriculum. Below are the general objectives of the unit:

**Growth and Development**

A. Know the parts of their bodies. Begin to understand changes that will take place during puberty. Know the importance of hygiene as their bodies change.

B. Know male and female anatomy and physiology.

If you would like to preview the materials for this unit, they will be available in the main office during the week of August 27th. If you have any questions about any or all of these units, please contact me at sspringer@littleferry.k12.nj.us. Please fill out and return the bottom slip by September 6, 2018.

Sincerely,

Sue Springer
Nurse
